

## Six Sigma Qualtec's Lean Training

Now more than ever, your customers demand faster, simpler ways of conducting business and expect consistent delivery of higher-value products and services. The challenges of meeting your critical customer requirements cannot always be addressed with one performance improvement method.

With Six Sigma Qualtec's **Lean Methods Training**, you eliminate non-essential steps in your business processes that waste time, waste money and aggravate your customers. The results: revenue gains, a streamlined cost structure, greater market share and loyal customers; adding value each step of the way. **Performance results that matter.**

By applying Lean Methods Training from Six Sigma Qualtec you'll see just how quickly 'satisfied' customers are transformed into loyal customers.

## What Lean Brings to Your Enterprise

Training your process owners in Lean Methods will increase the speed and ease of providing your products and services.

- Simplify process steps and eliminate non-value added activities
- Eliminate wastes in time, materials and expenses (throughout the organization)
- Remove barriers that impede the flow of material, information and decisions

## Lean Candidates Will Learn To:

- Recognize and prioritize opportunities for Lean
- Assess/quantify the impact of Lean improvements on enterprise performance & profitability
- Utilize basic Lean improvement concepts like value stream mapping, visible operations and operational flexibility

## Immediate Results

- Reduce non-value added activities
- Eliminate wasted time, materials and expenses
- Increase speed and output of products and services
- Improve responsiveness and flexibility to customer requests
- Integrate Lean activities with Six Sigma and other performance improvement methods
- Identify constraints and control variation
